The project "**AdriaPAN Secretariat**" presented by the AMP Torre del Cerrano, within the "*2nd Call for Small Grant Projects for Mediterranean MPAs for 2012-2013*" promoted by the Mediterranean Protected Area Networks (MedPAN) and sponsored by **Fonds Français pour l'Environnement Mondial, Prince Albert II of Monaco Foundation** and **MAVA Foundation**, has been selected as the winning proposal among 52 competitors. The project addresses the need for a cross-border and cooperative dialogue tool as means of raising the economical promotion practices of the Adriatic MPAs. The project partners are the MPAs adhering to the Cerrano Charter - the AdriaPAN Network - or being about to adhere to it. The project was promoted by the MPAs of Miramare and Torre del Cerrano with the latter as the lead applicant.

The general purpose is to gain the acquaintance and reliance of local MPA managers in this regional branch of the Mediterranean network, by providing services in favor of their MPAs and the local territory. This will take place by building up a common, **web-based communication tool** devoted to the broad public which will promote MPAs, the activities of interest and will provide general services. The same web portal will promote contacts among MPAs managers and staff - also through a restricted access - in order to produce common projects and proposals in response to funding tools such as EU's instrument for grants on programs like Interreg, IPA Adriatic, MED, Life+, South East Europe and others.

The web platform is already online by November 2012, and the Secretariat have to be extended by "**AdriaPAN Secretariat 2**" project.
