

PROJECT TITLE	NETCET2
PROGRAMME	IPA CBC
MISSION	Conservation of cetaceans and sea turtles in the Adriatic and Ionian Seas
OBJECTIVES	<p>The main objective of the NETCET2 project is to build upon the work of the NETCET project, to further develop common strategies for the conservation of cetaceans and sea turtles (C&ST) in the Adriatic and Ionian regions through regional cooperation.</p> <p>Due to the migratory nature of these species cross-border collaboration and shared management responsibility between Adriatic and Ionian states is crucial in order to plan effective long-term conservation strategies. The Adriatic and Ionian region hosts several species of cetaceans and sea turtles protected according to Directive 92/43/EEC.</p> <p>NETCET2 extends the geographical range of the project to include the nesting beaches of the southern Adriatic and the Ionian Sea.</p>
LEAD APPLICANT	Blue World Institute and relevant partners from the ongoing NETCET project.
