

Project 'POSEIDON'

| | |
|--|--|
| PROGRAMME | ???????????????????????????????? |
| TITLE PROJECT | POSEIDON Platform Oriented to Spatial and Environmental Integrated Databases Over Networks |
| LEAD PARTNER | ???????????????????????????????? |
| MISSION | "Facilitate the exchange of information among MPAs through the Integration of existing spatial and environmental databases" |
| OBJECTIVES | Define a platform oriented to the integration of spatial and environmental databases concerning marine and coastal protected areas. The objectives are: <ul style="list-style-type: none"> • ensure completeness, accuracy, coherency and consistency in data acquisition and data processing • minimize costs of databases management resulting in duplication of efforts/resources • increase data sharing among MPAs. • challenge databases interoperability problems |
| DEADLINE | ???????????????????????????????? |
| INFORMATION REQUIRED TO PARTNER | <ul style="list-style-type: none"> • Company name • list of European funding received within the past three years • name of the contact person for the project |
